

Pacific NorthWest LNG Project

Public comments by Hydrofuel Inc about the Pacific
NorthWest LNG Project.

<http://www.ceaa-acee.gc.ca/050/documents/p80032/108890E.pdf>

For the reasons stated in the above document and supported by Dr Ibrahim Dincer's group at UOIT (comments and MITACS report attached), Hydrofuel Inc. believes that the Pacific NorthWest LNG Project should not proceed and that the alternative of transporting energy in the form of anhydrous ammonia should be considered instead.
